Planning and Development

1. This Special Use Permit (SUP-6595) shall expire on July 6, 2011 unless another Extension of Time is approved by the City Council.
2. Conformance to all conditions of approval of Special Use Permit (SUP-6595) and all other site related actions as required by the Planning and Development Department and Department of Public Works.
3. The operation of a Church/House of Worship within the existing single-family residence on the subject site shall terminate immediately. The use may commence after all necessary building permits to convert the structure from residential to a place of assembly have been issued and finalized.

**** STAFF REPORT ****

PROJECT DESCRIPTION

The applicant received previous approval for a Special Use Permit (SUP-6595) for a proposed 5,700 square-foot church. Since the original approval of the Special Use Permit (SUP-6595), the applicant has received a two-year Extension of Time. The subject site currently has an existing 740 square-foot single-family, one-story residence that is being used as a church. The site does not comply with Title 19.04, as the Special Use Permit was approved for a new Church, not the conversion of an existing single-family residence. A research of the building permit activity shows no history of any permits being issued for the conversion of the single-family residence to a church, nor is there a record of a Certificate of Occupancy or an approved final inspection. Additionally, the site fails to meet the requirements outlined in Title 19.10 and 19.12 pertaining to required parking, landscaping, and buffer standards.

Staff is recommending denial of the Extension of Time request as the applicant is utilizing a structure for a use not permitted and has made no progress in the last four years towards exercising the entitlement.

ANALYSIS

This is the second request for an extension of time of a previously approved Special Use Permit (SUP-6595) for a proposed Church/House of Worship located at 1328 West Lake Mead Boulevard. Since the original approval of the Special Use Permit (SUP-6595), the applicant has not shown any progress on the proposed development. The subject site currently has a 740 square-foot, one-story single-family residence that is being used as a church. There is no landscaping or designated parking spaces located on the lot. Staff conducted a site inspection and found that the residence has signage posted advertising the name of the Church and hours of service. A research of building permit activity shows no history of any permits being issued for the conversion of the single-family residence to a church, nor is there a record of a Certificate of Occupancy or an approved final inspection for the use.

FINDINGS

The current structure is not permitted to be utilized as a church. The Special Use Permit (SUP-6595) that was approved and all plans submitted are for a new 5,700 square-foot building, not the conversion of an existing single-family residence. Additionally, the subject site does not comply with Title 19.10 and 19.12 pertaining to required parking, landscaping, and buffer standards. City records show no history of permit activity to convert the current single-family home to a church, nor is there a record of a Certificate of Occupancy being issued.

Title 19.18.060 deems a Special Use Permit exercised upon the approval of a business license for the activity, if required, or upon the issuance of a certificate of occupancy or approval of a final inspection. The applicant has not met Title 19.18.060 requirements as a permit has not been issued for the new structure nor has construction commenced.

The applicant is requesting a two-year extension of time due to poor economic conditions and time to secure financing. In the four years since the original approval of the Special Use Permit (SUP-6595), the applicant has not made any progress towards exercising the entitlement for the proposed development. Staff is recommending denial of this request since the applicant is utilizing an existing structure for a use not permitted and fails to meet Title 19 requirements for the designed use.
